Profile	Company started in 2005
Company Goals	To build well designed quality buildings that our children can be proud of and remember us with thanks.

Company Background

We are a family owned company. We are proud of what we are doing. We believe that planning is foremost the most important aspect of building not just the finances, but the product that we will deliver. We like to see our buyers live and use our buildings and enjoy them for many years. We like to work on virgin land and take it from wild to the final product we deliver, from zoning, planning, building and selling. Personal involvement from management in all our undertakings are very important to us. We also do a lot of joint ventures because we believe it helps to have a owner near to the service we deliver. We are also constantly identifying new opportunities. We do a lot of turn key developments where we offer our client planning and building as a complete solution.
